

AMENDMENT OF SPECIFICATION FOR OMITTED DRAWING
APPLICATION NUMBER

10/774,036

FILLING DATE

02/06/2004

FIRST NAMED APPLICANT

JAMES EARL TAULBEE III

MAILING DATE 12/16/04

PAGE 1 OF 5

Please accept the following as an amendment to applicant's patent application. The following changes are a result of an omitted drawing in the original filling of the patent application. In addition to the changes requested for the omitted drawing, the applicant has requested amending the page-numbering format, as it was incorrect.

The proposed amendments are intended to clarify the original application, and to eliminate confusion for the Patent Examiner. It is the applicant's intention to maintain the original filling date of the patent application.

I have included a *marked up version* that is labeled "PREVIOUS VERSION" at the top of each page with the amendments requested, I have also included a *clean* version labeled "Substitute Specification" at the top of each page with the corrected amendments mentioned with no new material added in this request.

Thank You,

James Earl Taulbee III
